

NEGRO MURDERER CAUGHT IN WOODS

Woman Aids Sheriff Pressnall of New Castle Capturing Escaped Prisoner.

MUNCIE, Ind., July 29.—William Anderson, the negro murderer, who escaped from jail here last Wednesday night with Harvey Lawson, ex-convict of Indianapolis, was captured in a woods near Honey Creek, Henry county, at 7 o'clock Monday night by Sheriff Pressnall and deputies of New Castle.

Early Monday morning, Sheriff Pressnall received a telephone call from the wife of a farmer living near Honey Creek, who said that she saw Anderson in the barn on their farm when she went to gather eggs. Sheriff Pressnall rounded up a posse and started in search of the negro. By the time they arrived at the farmer's home where Anderson was seen, the negro was gone. The sheriff's forces continued their search until 1 o'clock Monday afternoon when they gave up their work after not having found any trace of the murderer. Shortly before 6 o'clock Monday evening, Sheriff Pressnall received a call from a grain elevator owner at Honey Creek who said that he had seen the negro in a woods near there. With a force of between 50 and 60 men armed with everything from pitchforks to rifles the sheriff surrounded the woods. Six deputies headed by the sheriff then entered the woods, all armed with rifles and revolvers and began their search for the negro. As they neared an open place in the woods the negro sprang up from behind a log and holding up his left hand, shouted to the officers: "Don't shoot, the electric chair is waiting for me." While the deputies covered the negro with their guns, Sheriff Pressnall searched him and then securely handcuffed him. He was then taken to the New Castle jail to await the arrival of Sheriff Hiatt.

A squad of local detectives who had started to Honey Creek in search of Anderson were the first to arrive at the jail. When Chief of Detectives Puckett saw Anderson he asked him how he escaped from the jail.

Is Physical Wreck.
"Fred, wouldn't you walk out if the door was left open for you?" responded the negro. Anderson was brought to Muncie shortly before 11 o'clock tonight by Sheriff Hiatt and Deputy Sheriff Stradling. The negro is a physical wreck and collapsed when he reached the jail. He said that all he had to eat since last Wednesday was two doughnuts which he secured when he entered a farm house near Honey Creek. He said he broke into two farm houses to try to get something to eat. Monday night Anderson was being closely guarded in a cell on the lower floor of the jail. No special guard, however, has been placed about the jail, despite rumors about that an attempt will be made to lynch Anderson. Sheriff Hiatt says he expects no trouble.

Anderson murdered Clyde Benham, local druggist, on the night of June 10. He made his escape but was later captured near Economy by Sheriff Carr of Richmond. Anderson refused to talk to either the police or newspaper men.

The officers have no trace whatever of Lawson, who escaped with Anderson.

WIFE FILES COMPLAINT.
Mary Garansi says in a complaint for divorce, filed in superior court Monday, that her husband, George Garansi, made her work every day since they were married last February, and that he told her that if she did not continue to work that he would kick her out of the house. She also charges that he continually quarrelled with her, and on several occasions inflicted bodily injury upon her.

Chief Kline's Brother-in-Law Killed in Accident

NILES, Mich., July 29.—Fatally injured when his car overturned on the road to Niles from Barron lake late Sunday night, Ralph Eggleston, proprietor of the Eggleston restaurant here, died at the Park hospital in Buchanan, at 4 o'clock Monday afternoon. He was a brother-in-law of Chief of Police Peter Kline of South Bend.

Eggleston was on his way home from Barron lake when the fatality occurred. According to witnesses he was traveling at a fast clip in his Ford when a big touring car passed him and threw up a cloud of dust that obscured the road for some dis-

tance. He drove into a sand pit and the machine overturned twice. When picked up he was unconscious. He had been thrown 15 feet from the car.

After receiving medical attention in Niles he was rushed to the Park hospital in Buchanan where it was discovered his left ear had been torn off, his left shoulder blade broken, left arm broken and his skull probably fractured.

Eggleston is survived by a wife, Mrs. Ralph Eggleston of Niles, a mother, and two brothers, M. J. of Chicago and William Eggleston of Niles. The body was brought to Niles for burial late Monday.

REVOKE CHARTER OF MINE WORKERS

Say Attempt Was Made to Break Away From International Organization.

CALGARY, Alberta, July 29.—Revocation of the charter of district No. 18 of the United Mine Workers of America, 8,000 members of which have been on strike in Alberta and eastern British Columbia since June 24, was announced here Monday by Samuel Ballentine, Samuel Caddy and William Dalrymple, representatives of the union who have investigated the controversy in which, it is said, an attempt was made to break away from the international organization.

INDIANAPOLIS, Ind., July 29.—At the offices of the United Mine Workers here Monday night, it was said that the revocation of the Calgary district's charter was ordered by John L. Lewis, acting president of the international union, after a report was received from the Canadian investigators that the president and secretary of the district had joined the "One Big Union," which attempted some time ago to call a general strike in Winnipeg and other districts of Canada. The constitution of the United Mine Workers forbids any member joining other organizations not affiliated with the American Federation of Labor.

The revocation of the district charter is final, but it is said that the international board may determine later to effect a new organization in the district.

**"GOODNESS GRACIOUS,"
SPOKE THE DAMSELS**

INDIANAPOLIS, July 29.—"Goodness, gracious, Annabelle, there's a burglar in the kitchen!"

Thus spake a fair damsel at Mrs. Baker's school for teachers at 3 a. m. Monday. She was frightened and the other girls became frightened. So they called the police and the building was searched from cellar to attic. No burglar. With a sigh, doors slammed all along the hallway and kimonos were hung on convenient chairs.

MAY HEAD PALESTINE

NATHAN STRAUS.

Nathan Straus, noted philanthropist of New York, has, according to members of the Zionist organization of that city, declared his ambition to be the first mayor of Palestine. The merchant and philanthropist not only hopes to be the first head of the Jews when Palestine is definitely set aside as a homeland for those of his race, but will devote his entire fortune to the welfare of the new nation. That Mr. Straus is eminently fitted to be the first executive of liberated Palestine is the opinion of prominent Jews throughout the country.

Information obtained in the commission's investigation was cited to show that the "big five" have an interest in 28 of the 59 principal market yards of the country and a majority of voting stock in 22 others. It was said they buy most of the livestock sold at these markets. "They discriminate against and put at great disadvantage independent buyers who are their competitors," the report said. "They manipulate on occasions the livestock market in such a way as to cause extreme and unwarranted fluctuations in the daily prices paid for livestock. They have eliminated many competitors and prevented new ones from coming in. They have restricted the meat supply of the nation by manipulating the daily livestock prices and thus discouraging the producers of livestock."

JUDGE SUSTAINS ORDER.
SAN FRANCISCO, July 29.—Sale of beer containing two and three quarters per cent alcohol was permitted in a decision by Judge Wm. H. Sawtelle of Arizona in the United States district court here Monday, sustaining a demurrer of the Ranier Brewing Co., which asked that a government action to prohibit the sale of such beer be dismissed.

TERRIFIC STORM POSTPONES TRIP

Lightning Strikes Three Planes But Two Men Miraculously Escape.

MINEOLA, N. Y., July 29.—Three bombing planes, including the Martin machine in which Capt. Roy N. Francis planned to leave next Friday on a trans-continental flight, were wrecked by a terrific electrical storm which, sweeping over Long Island Monday afternoon, struck a steel hangar at Hazelhurst field.

Two men who were in the steel hangar at Hazelhurst field when it was struck by a bolt of lightning, miraculously escaped injury when the roof fell.

Two Planes Demolished.
In this hangar was the Martin bomber commanded by Capt. Francis, a Caproni triplane and two De Havillands. The Martin and Caproni were virtually demolished but the smaller planes, stored in the other end of the structure, escaped with slight injury.

The storm broke out of a clear sky, with less than five minutes' warning.

The CARBURETOR Is the Most Delicate Piece of Mechanism

on Your Car

It is there that gasoline vapors and air are mixed to produce perfect combustion in the cylinders. To get this result the carburetor must be adjusted to fit the gasoline used.

If there is a variation in the quality, or if you use grades of gasoline indiscriminately, you face constant carburetor adjustment, and very few men can adjust a carburetor properly.

Red Crown GASOLINE

is always the same no matter where you get it.

The quality is the same at Bemidji, Minnesota, as at a Chicago downtown station. Science permits of no inaccuracies or deviation from its standards.

Use Red Crown all the time and you will never have carburetor trouble.
